

ISABELLA CARRANZANI BOROT

Senior Frontend Engineer

Barcelona, Spain • icabo1598@gmail.com • [LinkedIn Profile](#)

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 6 years of experience taking end-to-end ownership of scalable web applications, component-driven architectures, and high-performance user interfaces. Proven track record at tech leaders like Oracle NetSuite and Lengow, driving complex legacy code migrations, building core UI components, and operating with a "One Engineer" mindset (combining development, QA, and automated test execution). Expert in React, TypeScript, and modern JS frameworks, with hands-on experience establishing internal Design Systems (Storybook/Chromatic). Pragmatic engineer leveraging modern AI workflows (Copilot, ChatGPT, Gemini) to accelerate Jest test suite generation, code refactoring, and code review cycles.

TECHNICAL SKILLS

Core Languages	TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, Python, Java, PHP
Libraries & Frameworks	React, Preact, Oracle JET, AngularJS, Redux
Testing & QA	Jest, React Testing Library, Enzyme, E2E Testing
UI/UX & Design Systems	Storybook, Chromatic, Figma, UI Component Libraries
Tools & Ecosystem	Git, SVN, WebStorm, VS Code, JIRA, Jenkins
AI Workflows	GitHub Copilot, ChatGPT, Gemini (applied to test generation, refactoring, and code reviews)
Methodologies	Agile, Scrum, Kanban, Feature Release Cycles, Hotfix Management

PROFESSIONAL EXPERIENCE

Oracle - NetSuite

Software Engineer (Frontend)

July 2024 – Present | Barcelona, Spain

- Core UI Components:** Operating within the core UI team taking ownership of the "Record List Template" and "Smart Filters" components.
- One Engineer Delivery:** Driving end-to-end feature delivery by combining frontend development with comprehensive QA responsibilities, including unit and E2E testing to ensure production robustness.
- AI-Assisted Engineering:** Integrating AI tools (Copilot, ChatGPT, Gemini) into daily workflows to accelerate Jest test suite generation, streamline component refactoring, and optimize code review turnaround times.
- Release Management:** Managing product lifecycles following structured feature release rhythms, executing hotfixes, and driving stabilization periods.
- Identity & Access Modernization:** Developed user interfaces for authentication features (SSO, OAuth2) using Oracle JET, transitioning legacy structures into a modular component architecture to improve maintainability.

Lengow

Frontend Developer

January 2022 – July 2024 | Barcelona, Spain

- Legacy Code Migration:** Contributed to the architectural transformation by helping migrate roughly 50–60% of the legacy codebase to a modern ReactJS and TypeScript stack, decoupling monolithic files into reusable components.
- Design System Implementation:** Championed and implemented Storybook and Chromatic from scratch, establishing the company's internal component library to ensure visual consistency across features.
- SaaS Platform Maintenance:** Maintained and optimized JavaScript, HTML, and CSS codebases for a high-traffic SaaS platform used daily by enterprise clients.

PROFESSIONAL EXPERIENCE (CONTINUED)

Beabloo

Frontend Developer

January 2020 – January 2022 | Barcelona, Spain

- **Custom Application Development:** Engineered client-facing applications from scratch using AngularJS, delivering medium-to-large features independently.
- **Cross-Functional Collaboration:** Partnered with Product Designers and Managers to translate UX/UI designs into reusable frontend components.
- **Performance Optimization:** Identified and resolved frontend performance bottlenecks, improving load times and application responsiveness.

Universitat Oberta de Catalunya (UOC)

Affiliated Teaching Staff (Frontend Development)

February 2024 – February 2025 | Remote, Spain

- Mentored and evaluated students in practical frontend engineering projects, assessing code quality, best practices, and modern web development standards.

Clínica Mi NovAliança

IT Intern

June 2015 – July 2015 | Spain

- Developed structures to handle daily information flow between departments and improved product stability by producing supportability ideas.

EDUCATION

Master's Degree in Web App and Website Development

Universitat Oberta de Catalunya

2022 – 2023

Bachelor's Degree in Computer Engineering

Universitat Pompeu Fabra

2016 – 2020

CERTIFICATIONS

MicroMaster in Management in Engineering Strategy & Leadership

MITx | 2020

Web Programming with Python and Javascript

HarvardX | 2020
